

Connecting 4 Justice International & Silent Victims of Crime

Collaboration at Sea 2027 Conference

May 17-21, 2027

Departing Fort Lauderdale, FL
with stops in The Bahamas

Collaboration at Sea is an international collaborative bringing together executive directors, program officers, board leaders, and funders across the justice-focused nonprofit sector.

More than a conference, this is an immersive, funding-focused experience designed for nonprofit leaders and funders serving children, youth, and families impacted by the criminal justice system.

At sea, meaningful conversations move beyond the traditional conference setting. Participants connect at the table, on deck, and in the workshop room- creating space for deeper collaborations, shared learning, and community, free from the distractions or everyday organizational life.
